

Dog Safety & Child Welfare

A Practical Workshop for Social Work Professionals

Overview

<i>What is the workshop?</i>	<p>This full-day workshop is designed to equip Social Workers with the essential knowledge and tools to assess dog safety in homes where children are present. With an increasing number of homes owning dogs, understanding canine behaviour and body language, identifying potential risks and understanding effective management is crucial to safeguarding children and supporting families effectively.</p> <p>The workshop includes practical guidance, real-life case studies and interactive activities to support learning. It also provides advice on when a more in-depth pet assessment would be required by a specific pet assessor.</p>
<i>Who is this suitable for?</i>	<p>This workshop is aimed at Social Work teams assessing the safety of pet dogs within a home environment where children are currently or will be placed.</p>
<i>How long are the workshops?</i>	<p>Workshops are typically for 5 hours. The time can be flexible and the full day can be split into two half day sessions, if needed.</p>
<i>How many professionals can attend?</i>	<p>We can cater to groups of all sizes.</p>

Example Workshop

<p><i>Morning</i></p> <p>10:00-12:30</p>	<p>Understanding Dog Behaviour and Safety Fundamentals</p> <ul style="list-style-type: none"> • Participants will gain a foundational understanding of dog body language and behaviour • How children interact with dogs and what this means for both the dog and child(ren) • We will consider common risks within home environments
